

GOOD SHEPHERD CENTER VOLUNTARY SEISMIC RETROFIT – PHASE 1

SECTION 00 4336

BIDDER SUBCONTRACTOR LIST

Pursuant to RCW 39.30.060, on a public works contract that is estimated to cost \$1 Million or more, the Bidder is required to:

...submit as part of the bid...the names of the subcontractors with whom the bidder, if awarded the contract, will subcontract for performance of the work of HVAC (heating, ventilation, and air conditioning); plumbing as described in chapter 18.106 RCW; and electrical as described in chapter 19.28 RCW, in addition to the steel fabricator, steel erector, framing, GWB, and plaster sub-contractors or to name itself for the work. The prime contract bidder shall not list more than one subcontractor for each category of work identified, unless subcontractors vary with bid alternates, in which case the prime contract bidder must indicate which subcontractor will be used for which alternate. Failure of the prime contract bidder to submit as part of the bid the names of such subcontractors or to name itself to perform such work or the naming of two or more subcontractors to perform the same work shall render the prime contract bidder's bid nonresponsive and, therefore, void. The requirement of this section is to name the prime contractor's subcontractors who will contract directly with the prime contract bidder submitting the bid to the public entity.

Bidders shall complete and submit this form with its Bid.

The following subcontractors will be performing the described work. Where the Bidder will be performing the work, the Bidder's name must be included in the appropriate space(s) below:

Description of Work	Name of Subcontractor (or Bidder)
Steel Fabricator	
Steel Erector	
Framing	
GWB	
Plaster	
HVAC (Heating, Ventilation & Air Conditioning)	
Plumbing	
Electrical	

Bidder's Business Name

Signature of Bidder's Representative
